**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Claims 20-28 are pending in the application.

#### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/9/10 has been entered.

#### ***Response to Amendment***

All rejection set forth in the previous office action not reiterated in this office action has been withdrawn.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 20-28 are rejected under 35 U.S.C. 102(e) as being anticipated by Lorenz (US 6,706,867).

Lorenz discloses a microarray comprises representative clones for more than 13, 389 different immunological clusters (see Table 1, and col.3, lines 5-10), wherein GGH,

Art Unit: 1636

COMT and CPE are among the selected genes (see Table 1, col. 57, 58, and col. 77).

Although the chip disclosed in Lorenz is not used to identify genes differentially expressed in different types of neuroendocrine tumor, it nevertheless meets the limitation of a microarray comprises genes distinguishably arrayed in spaced apart regions and comprises more than 10 genes, wherein said genes or polynucleotides fragments or RNA transcripts includes GGH, COMT and CPE. The implied use of the microarray chip does not impart a structural difference between the claimed microarray and what is disclosed in the Lorenz. Therefore, this reference anticipates the instantly claimed invention.

No claims are allowed.
